

WELCOME TO CORNERSTONE MUSIC STUDIOS

Who We Are

Summer '07 ushered in fulfilled vision and opportunity when Cornerstone Music Studios opened its doors to its first private music students! We set out not only to provide a creative, welcoming, and supportive environment for children and adults to participate in the universe of creative and artistic possibility (musically speaking), but also to strive toward nurturing each student to achieve their potential, both personally and musically. Cornerstone Music Studios is as much about helping each student reach his/her music potential as it is about achieving personal goals.

Musicians develop a range of skills as their talent unfolds: technique, interpretive independence, sight-reading, aural and acting skills, theory and performance etiquette. Of course, there are no shortcuts! The honing of these skills requires discipline, perseverance, a great attitude and very hard work! Additionally, students committed to their consistent weekly lesson schedules will experience greater pride in their progress. It is evident that *your* decision to support your child's pursuit of their musical study at Cornerstone Music Studios plays a significant role in *their* commitment to *their* journey. "Bravo!" To all parents for your commitment to your child's pursuit of musical excellence!

Thank you, always, for your confidence and support ~
Laura Wittman

"It is only by introducing the young to great literature, drama and music, and to the excitement of great science that we open to them the possibilities that lie within the human spirit—enable them to see visions and dream dreams."
