

# WELCOME TO CORNERSTONE MUSIC STUDIOS

Summer '07 ushered in fulfilled vision and opportunity when Cornerstone Music Studios opened its doors to its first private music students! We set out not only to provide a creative, welcoming, and supportive environment for children and adults to participate in the universe of creative and artistic possibility, (musically speaking), but also to strive toward nurturing each student to achieve their potential, both personally and musically. Cornerstone Music Studios is as much about helping each student reach his/her music potential as it is about achieving personal goals.

Summer '11 ushered in a different type of vision: organic growth! Who would have thought a beastly hurricane in August 2011 was just the encouragement we needed to expand our musical horizons? Cornerstone Music Studios EAST has been "unveiled" and we are humbled by the journey endured to share the additional space with our Cornerstone Music students and families!

Musicians develop a range of skills as their talent unfolds: technique, interpretive independence, sight-reading, aural and acting skills, theory and performance etiquette. Of course, there are no shortcuts! The honing of these skills requires discipline, perseverance, a great attitude and very hard work! Additionally, students committed to their consistent weekly lesson schedules will experience greater pride in their progress. It is evident that *your* decision to support your child's pursuit of their musical study at Cornerstone Music Studios plays a significant role in *their* commitment to *their* journey. "Bravo!" To all parents for your commitment to your child's pursuit of musical excellence! Thank you, always, for your confidence and support ~
